PROFESSIONAL SUMMARY

Computer Engineering student specializing in UI/UX and web development, with hands-on experience in building responsive websites, chatbots, and interactive platforms. Proficient in Python, Java, JavaScript, and modern web frameworks, with strong skills in front-end design and usability. Passionate about delivering user-centered digital solutions that improve accessibility and efficiency.

EXPERIENCE

PRIME Philippines   **Jun 2024 - Jul 2024**
IT Intern

- Built and deployed an NLU chatbot using Python and Rasa that automated responses to 50+ property search queries, reducing client inquiry handling time and enhancing user experience.
- Designed and developed an interactive map using Folium and Flask, enabling the stakeholders to view the property listing.
- Conducted manual testing on the company website, documented issues, and collaborated with the development team to improve system reliability.

PROJECTS

Computer Engineering Information Site   **Sept 22, 2023**

- Created a comprehensive website about computer engineering, providing information on various topics in the field.
- Designed the user interface and layout using HTML and CSS, ensuring a professional and accessible presentation of content.
- Organized the information into structured sections, making it easy for users to navigate and find relevant information.

Personal Website   **Jun 12, 2024**

- Created a personal website providing one's information, such as educational attainment, programming languages used, favorite songs, and social media platforms
- Developed the interface and page structure in HTML, CSS, and JavaScript to ensure clarity and usability

EDUCATION   **2021-2025**

Bachelor of Science in Computer Engineering
University of the East - Manila

AFFILIATION   **2023-2024**

- ENSC (Engineering Student Council) Staff
- Society of Computer Engineering Students Member

ADDITIONAL

- **Technical Skills:** Proficient in Python, Java, and JavaScript. Skilled in HTML and CSS for web design, experienced with web development tools such as Figma, and adept in mobile development using Android Studio.
